

Dear Colleague,

On behalf of the committee I am pleased to announce that the 3rd Scientific/AGM will take place on **Saturday 16th September 2006 in Trinity Education Centre AMNCH Tallaght**. I enclose a copy of the provisional program and ask that you put it on display in your department, as only paid up members have received this notification. A membership form has been included, so encourage all your colleagues to join.

The theme of this year's meeting is "Contribution to Modern Healthcare". I enclose a registration form, which can be photocopied as required. There are early and late registration fees and also more expensive rates for non-members. So it pays to become a member now! Please return the registration form before Friday the 4th of August.

Once again we are calling for abstracts, which will be presented orally or by poster on the day (*see abstract form*). A prize of book tokens worth 150 euro will be awarded to the best platform and poster presentation.

Finally, it is essential that we have new people coming forward onto the committee, as the current committee will not be available for re-election (with one or two exceptions, as per our constitution). It is not necessary that you have any previous experience (none of us had when we started), just have the interest and enthusiasm in getting the job done.

I look forward to seeing you all on 16th for what should be a very interesting and enjoyable event.

Yours sincerely,

Odette O' Flaherty
